

Diagnostic Report

Recording: 20210317162251

This diagnostics report provides visual feedback for the video recording mentioned above, as extracted from the recording logfile generated with the RECtoBIN executable. Should the overall recording performance be unsatisfactory, try increasing the RAM and saving to SSD. Report generated with Diagnostics.py - MIT Copyright (c) 2021 GuillermoHidalgoGadea.com

Serial number: 20323042
Frames recorded: 100001
Recording duration: 515.31 sec
Average FPS: 104.34
Number of critical frames: 60

Serial number: 20323049
Frames recorded: 100002
Recording duration: 515.29 sec
Average FPS: 104.34
Number of critical frames: 58

Serial number: 20323052
Frames recorded: 100020
Recording duration: 515.32 sec
Average FPS: 104.34
Number of critical frames: 56
